The Spirit of Militarism

The below quotation is excerpted/ translated from a text written in 1915 Germany, titled "The Spirit of Militarism" – please note it reads as if the essential, a continuing script for ongoing societal destruction via "leftist/ globalist" activities, also affirming the intertwined relationships and functions of Bolshevism,

imperialist/ dictatorial ambitions and capabilities)

Author: Nahum Goldmann (ardent Zionist and then-soon-to-be leader, for decades, of the World Zionist Organization and World Jewish Congress), wrote in 1915, in the midst of WW-I and on the eve of Russia's destruction by revolution:

QUOTE

"The historical mission of our world revolution is to rearrange a new culture of humanity to replace the previous social system. This conversion and re-organization of global society require two essential steps: firstly, the destruction of the old established order, secondly, design and imposition of the new order. The first stage requires the elimination of all frontier borders, nationhood and culture, public policy ethical barriers, and social definitions, only then can the destroyed old system elements be replaced by the imposed system elements of our new order.

"The first task of our world revolution is Destruction. All social strata and social formations created by traditional society must be annihilated, individual men and women must be uprooted from their ancestral environment, torn out of their native milieus, no tradition of any type shall be permitted to remain as sacrosanct, traditional social norms must only be viewed as a disease to be eradicated, the ruling dictum of the new order is; nothing is good so everything must be criticized and abolished, everything that was, must be gone.

"After the destruction of the old order, construction of the new order is a larger and more difficult task. We will have torn out the old limbs from their ancient roots in deep layers, social norms will be lying disorganized and anarchic so they must be blocked against new cultural forms and social categories naturally re-emerging. The general masses will have been first persuaded to join as equals in the first task of destroying their own traditional society and economic culture, but then the new order must be forcibly established through people again being divided and differentiated only in accordance with the new pyramidal hierarchical system of our imposed global monolithic new world order."
